Shocking Death of Miss Ella INTERURBAN TO CROSS THE HARRIMAN TRACKS

Judge Howell, in Lengthy Decision, Gives Bamberger Road a Crossing.

Special to The Tribune. OGDEN, June 22.-In a lengthy decision filed by Judge J. Albert Howell of the Second District court, Monday morning. the Salt Lake & Ogden Railroad company is allowed to cross the tracks of the Union Pacific railroad in this city near Thirtysecond street, with the provision that cor second street, with the provision that certain directions of the court be observed. The interurban company, by the decision of the court is allowed to continue the construction of its temporary surface or grade crossing across the Union Pacific tracks, but the limit of this character of crossing is fixed at one year.

Since it has been argued by the representatives of the Harriman road that the crossing at this point is dangerous at grade. Judge Howell ordered in accordance with an agreement recently reached, that the Union Pacific install within thirty days an effective system of derailing switches and signal system at the crossing, for which the Bamberger road is required to pay the sum of \$2000 to the other road.

At the end of the year, when the overhead crossing which will be later constructed by the Bamberger road over the present grade crossing must be completed, the derailing switches and signal apparatus will be of no further use at this point, and the Harriman road has agreed to repurchase the material for \$1000.

This decision of Judge Howell means that work will be begun on the crossing in accordance with the legal requirements at once, and it is practically assured by the representatives of the interurban road that the company will be doing business between this city and Salt Lake by July 4. tain directions of the court be observed.

Miller, who was in the engine, nor Engineer Perrin had seen the couple when the engine passed over the bridge, but this could be essily explained by the leapy which the couple took which may have happened without the knowledge of the trainmen.

"SHOW ME," SAY VOTERS OF IDAHO

Want "Timber Bill' to Explain Why Ruick and Rounds Were Bounced.

BOTH OFFICIALS DID THEIR SWORN DUTY

This Is Why Idahoans Want to Be Shown: And Borah Must Do So.

pecial to The Tribune. BOISE, Idaho, June 22 .- The shake up in the Federal offices in this State will not have a tendency to help Timber Bill Borah and Jim Brady in carrying the State at the November election. Both United States Marshal Rounds and United States Attorney Ruick were the personal friends of Senator Herburn. He it was who had them appointed. These two gentlemen, as is well known, were in office when the timber land thieves were prosecuted. United States Attorney Ruick was zealous in his pros-ecution of these looters of the magnifi-

ecution of these looters of the magnificent pine forests of this State.

Among those who were indicted was
William E. Borah, otherwise known as
Timber Bill, and William the Promiser,
now, through his deal with the Salt
Lake hierarchy. United States Senator
from this the Gem State.

Timber Bill faced the courts. Ruck
prosecuted him. Rounds served the papers upon him. He was acquitted. But
not so with some of his friends. Several of them were prosecuted to conviction. Ruck did it Rounds served
the papers. Both have been decapitated.
Does Timber Bill want prosecution of
the timber land thieves to stop? The
removal of these two efficient officers
would so indicate.

would so indicate. Why Sympathy of Roosevelt? In connection with the removal of these two officials it has become cur-rent that President Roosevelt sympathizes with Borah, with Timber Bill, with William the Promiser, in his trouble (?) with these two officers, and was therefore only too glad to set them aside when requested. Now Republicans of Idaho are asking the question, 'Why should the man with the big stick sympathize with Borah any more

than with any other man who was in-dicted for timber land frauds?"

Kester and Kettenbach were indicted for timber land thefts. They were prosecuted to conviction. They have friends as well as Borah and they are asking the question why Presidential sympathy is not shown toward these two men. United States Attorney Ruick did his duty toward these two convicted men and toward Borah, who was acquitted.

Will Prosecutions Stop?

Many Idaboans have come to believe that there will be no more prosecutions of the timber land pirates; believe that the indictments pending against a number will be allowed to drift along and finally be nolled. Bolters from the Democracy of the State in Ada, Canyon and Nez Perce, feel that the indictment against Frank Martin, one of the leaders of the bolting faction, and who is being groomed as the real lead. the leaders of the bolting faction, and who is being groomed as the real leader, will never be prosecuted. Hundreds of voters believe that this is a part of the deal made by which failure to prosecute is the price he is to receive for his action thus far, for it has long been known that he is the Judas of the Democracy in Idaho. He betrayed his party, and common talk is that he has been voting the Republican ticket for several years past, although posing as a Democrat. a Democrat.

Demand Explanation.

There are a great many voters in the Republican party who would like to have Timber Bill explain why he ap-pointed C. H. Lingenfelter to succeed Mr. Ruick when he knew that Lingenfelter was an attorney for timber land

Judge Lingenfelter comes from Lew-iston. His fellow townsmen and Repub-licans oppose his confirmation. G. W. Thompson, one of the wheel horses of Thompson, one of the wheel horses of the Republicans of north Idaho, an old resident of Lewiston and Nez Perce county, is out in the open against the confirmation of Lingenfelter, declaring that he will furnish direct and positive proof that Lingenfelter was retained as an attorney by Kester and Kettenbach. Thompson turns on Senator Borah, whom he supported in his fight for Senatorial honors, declaring that he is determined that President Roosevelt shall be told what Thompson elaims to know be told what Thompson claims to know, no matter how much Senatorial opposition he may meet with. Here is what Mr. Thompson says:

Republican Wheelhorse Indignant. Republican Wheelhorse Indignant.

I do not, as a usual thing, care to discuss matters of this kind in the public press, but it seems to me that it is well to make a statement of the facts. I made a protest against Mr. Lingenfelter's appointment because I believe him to be unfit for the office and disqualified by reason of the fact that he accepted a fee in defense of Rester and Kettenbach. I have absolute and positive proof of this, in writing, and will see that it reaches the authorities at Washington. I do not know who has indorsed Mr. Lingenfelter, but I take it from news dispatches that Senator Borah is responsible for the appointment.

pointment.

It caused some surprise when Borah named this man and I wish to state now that I believe Borah is in no position to name a district attorney for Idaho, as many of his friends and former cilents are used by the contribution of the state of t are under indictment or conviction, and in naming their prosecutor he immediately lays himself open to consure, especially by appointing Mr. Lingenfelter, who at one time was retained as counsel to de-fend Kester and Kettenbach. I take this nestition "Compromise the Administration."

"Compromise the Administration."

The government has been proseduting fraud, not only in Idaho, but in other piaces, and the honest American citizens stand back of the administration, pleased that these grafters are being brought to bay. I feel that the appointment of Lingonfelter practically compromises the administration and I do not believe this is with the knowledge or authority of President Roosevelt, so that I shall endeavor to have him investigate the appointment, believing him to be anxious to find a man who has never been in sympathy with men who have been convicted of crime against the government.

He can find 100 attorneys in Idaho competent to fill the position and against whom no finger of suspicion should be raised. I believe Senator Borah has failed to acquaint Roosevelt with all the facts. I believe it a mistake to condemn men who have prosecuted land fraud criminals, but I do not care to take up the cudgel in defense of Ruick, who was probably not warranted in prosecuting senator Borah, but it seems that Borah should not expect to fill Ruick's place with the former attorney of the men now under sentence.

Borah-Brady Gang Alarmed.

The appointment of Lingenfelter was, no doubt, made with a view of pacifying northern Idaho, the voters in both parties so strongly protesting against interference by the Salt Lake hierarchy in political affairs of Idaho. The appointment had been promised to a well-known resident of one of the strong Mormon counties, but the Borah-Brady gang have become frightened and the man slated for the job set aside, the gang relying upon their church allies to pour some of the metuous oil upon the wounded individual and keep him in line.
